DesignPLUS

Create Your Framework for Learning with Design Tools

UF | Center for Online Innovation and Production
UNIVERSITY of FLORIDA

Lori Gibbons, M.A.M.C.
Web Developer

Brenda Such, Ph.D.
Assistant Director, COIP

Workshop Outline

Key topics for discussion

Introduction

The Basics & Key Terms

Style Content with Design Tools

Design Tools for Faculty and Staff Course

Demonstration

Hands-on Activity

Show and Tell

Conclusion

Build courses in minutes

(not hours)

Reuse and update existing content

Easily copy content and use themes and templates to style pages faster

Design courses with accessible content

Built-in accessibility tools at your fingertips

Improve student experience

Improve the quality, consistency and accessibility of your courses

key

TERMS

KEY TERMS

BANNER

Similar to a website header.
Image and text on the top of a page. Text usually displays course name and title and image represents course topic.

THEME

Adds style automatically to a page.
Pre-configured layouts containing graphics, headings, and colors.

CONTENT BLOCK

Defined chunks of content that allow you to add text, images, video, lists.
Can rearrange easily by dragging block.

ELEMENT

HTML components that formats the document semantically.
For example, a paragraph is one element. An image is an element. The list goes on!
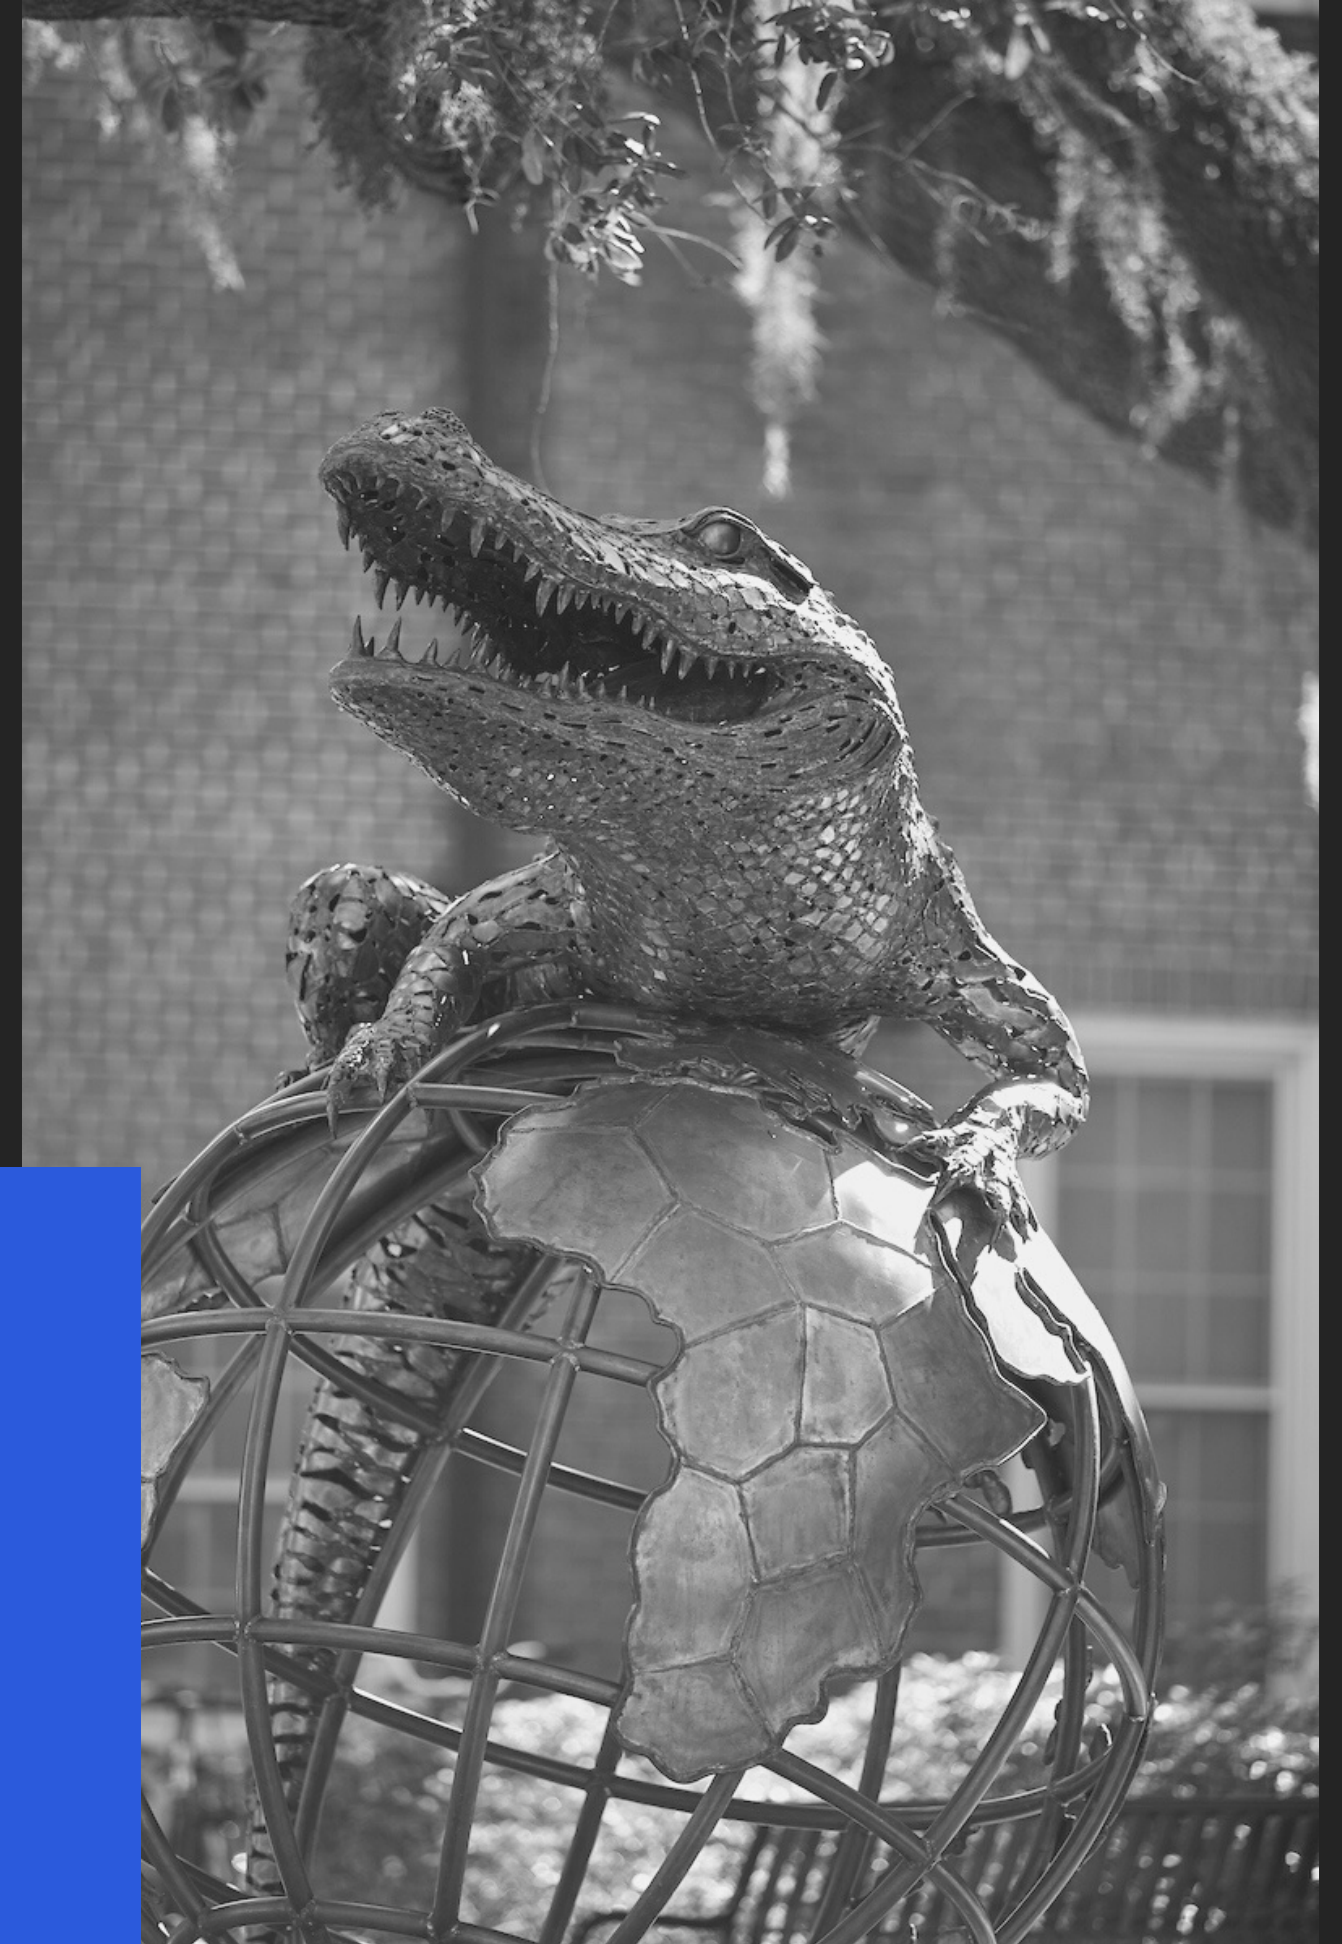

STYLE CONTENT WITH *Design Tools*

DEMONSTRATION

Where to go for Design Tools Training

UF-targeted training

DesignTools Resources for Faculty and Staff
