The University of Florida Technology Innovations Advisory Committee (TIAC) and the Digital Humanities Working Group (DHWG) invite all UF researchers and instructors (faculty, lecturers, teaching assistants with their own classes) for this year's Interface seminar Thursday, April 25th from 8AM to 4:30PM. This seminar is themed around **Learning on-and off-line: "Reading, Reflecting, Displaying, and Doing,"** and will include 10-minute lightning talks, roundtables, and refreshments, including breakfast and lunch. The complete schedule for the event is available online: <http://interface.at.ufl.edu>

A free continental breakfast and lunch will be provided; however, seating is limited and registration (no fee) is required. All instructors attending the face-to-face program will be entered in a drawing to win a free iPad. You must be registered and present at the drawing time to win.

The seminar is designed to engage attendees in demonstrations, discussion and networking focused on improving teaching, learning, research, and public engagement by deploying innovative pedagogy and research using new and emerging

technologies. Faculty Seminar participants will have opportunities for discussion with both presenters and peers.

This event is intended as a face-to-face forum; however, the lightning talks and keynote will be live streamed. The breakout table sessions will be available online as well. Register as an Online Participant to receive the appropriate URLs.

**Interface: Faculty Seminar** is co-organized by Academic Technology, the Center for the Humanities and the Public Sphere, and the George A. Smathers Libraries.

**Keynote presentation by Dr. Curtis Bonk**, Professor of Instructional Systems Technology at Indiana University, internationally recognized speaker on online teaching, learning, and technology, and author of *The World is Open: How Web Technology is Revolutionizing Education*; *The Handbook of Blended Learning: Global Perspectives, Local Designs*; *A Special Passage through Asia E-Learning*; and the widely used, *Empowering Online Learning: 100+ Activities for Reading, Reflecting, Displaying, and Doing*; as well as more than 275 articles on a wide variety of research areas and interests.
